 12. Emails and leaving a review
 13. If something is not working
-

1. What the portal is

The portal is your private home for working with Dot One Media. In one place you can:

- Book your session and pick your date and time.
- Sign your agreement and pay securely.
- Follow your project as it moves from booking all the way to your finished photos or video.
- Message the studio, see your details, and get your finished work.

Everything is in one link: **portal.dot1.media**.

2. Booking a session

Booking takes just a few minutes. You may have received a personal booking link from the studio that already holds a slot for you, or you may be booking from the start. Either way the steps are the same.

1. Go to **portal.dot1.media** and choose **Book a session (Get started)**.
2. **Choose your service.** Pick the type of session you want.
3. **Add any extras.** If there are add-ons available (for example, an extra hour), choose any you want. Your **Total** updates as you go.
4. **Choose an available day**, then **Choose a time** from the open slots. (If the studio sent you a link that already reserved a slot, your date and time will already be set and held for you.)
5. Continue to create your account and sign (next section).

At any point you can see your running total, and payments are always handled securely (Section 4).

3. Creating your account and signing

To finish booking you create a simple account and sign the studio's agreements. This is also how you will log back in later to follow your project.

1. **Enter your details:** **Your name**, **Email**, a phone number (optional), and **Create a password**. You will use your email and this password to sign in later.
2. **If the session is for a child under 18:** check the box that says the session is for a child under 18 and that you are the parent or legal guardian signing on their behalf. A couple of extra fields will appear (the child's full name and your relationship to them), and you will sign the version of the release for minors.
3. **Read the agreements.** You will see short summaries of the **Client Services Agreement** and the **Release & Liability Waiver**, each with a link to read the full document as a PDF. These cover things like payment terms and permission to photograph or film.
4. **Choose how your images and video may be used.** You will pick one option: - **Portfolio & Marketing** (the usual choice): the studio may use your images to promote its own work, such as its website, social media, and portfolio. It will not sell or license your images to unrelated companies. - **Full Commercial Use:** the studio may also license or sell the content for commercial purposes. - **Private / Limited Use:** the studio uses the content only to deliver your finished project and will not publish your images publicly (with room for you to note any exceptions).
5. **Sign.** Type your full legal name in the signature box and check the box to agree. Your typed signature is legally binding.

6. Choose **Sign and continue** to go to payment.

4. Choosing how to pay

Payment is quick and secure. Depending on your session you may be able to pay in full or pay a portion to reserve your date.

- You will see your payment options, for example **pay in full** or a **deposit** (and for video work, a retainer to hold your date). The amount for each option is shown clearly before you pay.
- All payments are processed securely through **Square**, a trusted payment company. Your card details go straight to Square, and you will get a receipt by email.
- Some services (such as music or government work) are handled as a quote rather than online payment. If so, the studio will arrange payment with you directly.

Once you pay, your booking is confirmed and you are all set.

5. What happens after you book

After booking you will see a short "**What to expect after you book**" note, and you will receive a confirmation by email. From here, everything happens in your portal:

- Your session appears with its details.
 - You can log back in any time to see where your project stands.
 - The studio will move your project forward through its stages, and you will be notified as it progresses.
-

6. Logging back in later

To come back and check on your project:

1. Go to **portal.dot1.media** and choose the **Client Login / Sign in**.
2. Enter the **email** and **password** you created when you booked.
3. You will land on your project page.

Forgot your password?

1. Choose **Forgot password?** on the login screen.
 2. Enter your email and choose **Send reset link**.
 3. Check your email for the reset link, open it, and **choose a new password** (at least 6 characters). Then sign in with your new password.
-

7. Following your project (your timeline)

Your project page shows exactly where things stand, with a **Your session timeline** that fills in as the work progresses. Here is what each stage means:

1. **Session Scheduled**: your session is on the calendar. The studio will confirm the details with you.
2. **Booked & Confirmed**: everything is confirmed and locked in. Next, the studio prepares for your day.
3. **Day of Session**: the day everything is captured. Afterward, the work moves into editing.
4. **Post-Session**: that's a wrap. Your files are safely backed up while the studio selects the strongest moments.
5. **Editing**: the creative work is underway; your final pieces are being edited and crafted.
6. **Pre-Delivery Review**: your preview is ready to look at. Take a look and tell the studio if you'd like any changes before final delivery.
7. **Final Delivery**: all done. Your finished work is ready and delivered (Section 11).

At the top of your page you will also see your current status in plain language, so you always know whether anything is needed from you. Most of the time, you can simply relax and let the studio work.

8. Your production brief

Your project page has a **Production brief** where you can tell the studio about your session so they can prepare, things like your vision, the location, who is involved, and the vibe you are going for.

1. Open the **Production brief** on your project page.
2. Fill in the fields. You can **Save draft** as you go and come back to it.
3. Save it when you are happy. The studio sees your brief and uses it to prepare for your session.

The more you share, the better the studio can tailor your session to you.

9. Messaging the studio

Your project page has a **Messages with the studio** thread, so all your conversation about the project stays in one place.

1. Open **Messages with the studio** on your project page.
2. Type your message and send it.
3. When the studio replies, you will see a note that you have a new message; you can **Mark as read** once you have seen it.

This is the easiest way to ask a question or share something about your session.

10. Paying a balance or extra items

If there is a balance to pay, or the studio adds an extra item you agreed on, it will appear on your project page under the extra items your studio has added.

1. On your project page, find the payment or the extra item.
2. Choose **Pay now**.
3. Pay securely through Square, just like your original payment.

You will get a receipt by email for each payment.

11. Getting your finished photos or video

When your project reaches **Final Delivery**, your project page will show that **your finished work is ready**, with a link to view it.

- **Photo galleries** are delivered through the studio's gallery, where you can view, favorite, and download your images (and order prints, if offered). Just follow the link on your project page.
- **Video and other files** are delivered by link the same way.
- If your **preview** is ready before final delivery, you will see that your preview is ready to look at, so you can share any thoughts before the studio finishes.

If a link ever does not open, see Section 13.

12. Emails and leaving a review

- **Email preferences:** your project page has an **Email preferences** section where you can choose which emails you receive from the studio (project updates, messages, and payment reminders). Everything still shows in your portal either way, so you never miss anything important.
 - **Leaving a review:** after your project wraps, you may see a friendly prompt ("**Loved working with us?**") with a link to leave a review. If you enjoyed working with the studio, it truly helps to leave one.
-

13. If something is not working

Most hiccups are easy to sort out.

You cannot log in. - Make sure you are using the **Client Login** and the same **email** you booked with. - Use **Forgot password?** to reset your password (Section 6). - If you booked over the phone or in person and never created a password, you may not have an online account yet; just ask the studio.

You did not get a confirmation, receipt, or reset email. - Check your spam and promotions folders. - Make sure the email address on your booking is correct. - If it is still missing, message the studio and they can resend it.

Your payment did not go through, or your card was declined. - Try again, or use a different card. Declines are handled by your bank and the payment company, not the studio. - If you were charged but your project still shows a balance, do not worry; message the studio and they can confirm the payment on their end. Your money is not lost.

Your gallery or finished-work link will not open. - Try opening it in a different browser, or on a different device. - If it still will not open, message the studio and they will send a fresh link.

You need to change your date. - On your project page, choose **Request a new date**. Your request goes to the studio to confirm.

Something looks wrong or you are just not sure. - Message the studio through your project page, or reach out however you normally do. They are happy to help.

This guide reflects how the portal works today. If a screen looks a little different, follow what is on your screen, and never hesitate to ask the studio for a hand.
